

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. – 45. (cancelled)

46. (new) A cosmetic formulation, wherein the formulation comprises a microemulsion which comprises (a) one or more antiperspirant active ingredients and (b) one or more α -hydroxycarboxylic acids which comprise mandelic acid.

47. (new) The cosmetic formulation of claim 46, wherein the microemulsion comprises an O/W microemulsion.

48. (new) The cosmetic formulation of claim 46, wherein the formulation comprises a microemulsion gel.

49. (new) The cosmetic formulation of claim 47, wherein the formulation comprises an O/W microemulsion which comprises an oil phase, a water phase and less than 20% by weight of one or more emulsifiers, based on a total weight of the microemulsion.

50. (new) The cosmetic formulation of claim 49, wherein the one more emulsifiers comprise one or more O/W emulsifiers selected from polyethoxylated, polypropoxylated and polyethoxylated and polypropoxylated O/W emulsifiers.

51. (new) The cosmetic formulation of claim 50, wherein the one more emulsifiers comprise one or more O/W emulsifiers selected from fatty alcohol ethoxylates, fatty acid ethoxylates, and polyethylene glycol glyceryl fatty acid esters.

52. (new) The cosmetic formulation of claim 50, wherein the one or more emulsifiers further comprise one or more W/O emulsifiers.

53. (new) The cosmetic formulation of claim 49, wherein droplets of a discontinuous oil phase are joined together by one or more crosslinker substances whose molecules comprise at least one hydrophilic region which has a size suitable for bridging a distance between the droplets and at least one hydrophobic region which is able to enter into hydrophobic interaction with the droplets.

54. (new) The cosmetic formulation of claim 46, wherein the one or more antiperspirant active ingredients comprise one or more aluminum salts.

P29300.A04

55. (new) The cosmetic formulation of claim 57, wherein the one or more aluminum salts comprise aluminum chlorohydrate, activated aluminum chlorohydrate, or both.

56. (new) The cosmetic formulation of claim 46, wherein a ratio of (a) to (b) is from 15 : 1 to 1 : 1.

57. (new) The cosmetic formulation of claim 56, wherein the ratio is from 10 : 1 to 2.5 : 1.

58. (new) The cosmetic formulation of claim 54, wherein the formulation comprises from 1% to 35% by weight of (a), based on a total weight of the formulation.

59. (new) The cosmetic formulation of claim 58, wherein the formulation comprises up to 20% by weight of (a).

60. (new) The cosmetic formulation of claim 46, wherein the formulation comprises from 0.1% to 10% by weight of (b), based on a total weight of the formulation.

61. (new) The cosmetic formulation of claim 46, wherein the formulation has a defined yield point.

P29300.A04

62. (new) The cosmetic formulation of claim 61, wherein the formulation has a yield point of from 40 to 120 Pa, determined at 25°C by means of a shear stress time ramp of 40 Pa/min.

63. (new) The cosmetic formulation of claim 46, wherein the formulation is transparent.

64. (new) A cosmetic formulation, wherein the formulation is transparent, is suitable for application to human skin, and comprises a microemulsion which comprises from 1% to 25% by weight, based on a total weight of the formulation, of (a) one or more antiperspirant active ingredients which comprise aluminum chlorohydrate, activated aluminum chlorohydrate, or both, and from 0.1% to 10% by weight, based on a total weight of the formulation, of (b) one or more α -hydroxycarboxylic acids which comprise mandelic acid.

65. (new) The cosmetic formulation of claim 64, wherein the microemulsion comprises an O/W microemulsion.

66. (new) The cosmetic formulation of claim 64, wherein the formulation comprises a microemulsion gel.

67. (new) The cosmetic formulation of claim 65, wherein the O/W microemulsion comprises an oil phase, a water phase and less than 20% by weight of one or more emulsifiers,

P29300.A04

based on a total weight of the microemulsion.

68. (new) The cosmetic formulation of claim 67, wherein the one more emulsifiers comprise one or more O/W emulsifiers selected from polyethoxylated, polypropoxylated and polyethoxylated and polypropoxylated O/W emulsifiers.

69. (new) The cosmetic formulation of claim 67, wherein the one more emulsifiers comprise one or more O/W emulsifiers selected from fatty alcohol ethoxylates, fatty acid ethoxylates, and polyethylene glycol glyceryl fatty acid esters.

70. (new) The cosmetic formulation of claim 68, wherein the one or more emulsifiers further comprise one or more W/O emulsifiers.

71. (new) The cosmetic formulation of claim 70, wherein one or more W/O emulsifiers comprise glyceryl monostearate.

72. (new) The cosmetic formulation of claim 64, wherein a ratio of (a) to (b) is from 15 : 1 to 1 : 1.

73. (new) The cosmetic formulation of claim 64, wherein the formulation comprises up to

P29300.A04

20% by weight of (a) and up to 8% by weight of (b).

74. (new) The cosmetic formulation of claim 66, wherein the formulation has a defined yield point.

75. (new) The cosmetic formulation of claim 74, wherein the formulation has a yield point of from 40 to 120 Pa, determined at 25°C by means of a shear stress time ramp of 40 Pa/min.
